Settings

Make knitCompanion your own! Customize knitCompanion with features tailored to improve your knitting experience.

Tap **Settings** to go to your knitCompanion settings.

Categories

Settings are organized into six categories.

1. General
2. Files
3. Sounds
4. Markers & Colors
5. System Colors
6. Linked Accounts

General Settings

- **Knitter's Name:** Required so you can share your projects with your other devices.
 - Use the same Knitter's Name on all devices and do not change it over time.
 - Knitter's Name is case sensitive.
 - It is strongly recommended that you keep your Knitter's Name in a safe place in case of device failure.
- **Block Sleep:** By default, knitCompanion will not sleep while you are knitting from a project. If you wish to allow your device to sleep while knitting, turn off Block Sleep.
- **Quick Start:** Creates a piece for each page. Turning this off is not recommended.
- **Show Simple Counter Name:** Turn on to view the simple counter name on the Main Knitting page.

- **Reset Built-in Content:** Use if you deleted one or more of the built-in patterns.
- 🍏 • **Restart Tips:** Take a tour of knitCompanion! As you use knitCompanion features, tips will appear. Tap Restart Tips to rewatch the tips at any time.
- **Help & Support:** Takes you to knitCompanion's online documentation.
- **App Version:** The version of knitCompanion on your device:

Files

Set preferences for how you would like to view and work with Project and PDF files.

- **Show Images:** Choose whether to show images on the Projects and PDFs pages.
- 🍏 • **Image Size:** If using List View, choose whether to view small or larger images.
- **File View:** Choose whether to view Projects and PDFs in a grid or in a list.
- **Sort By:** Choose whether Projects display alphabetically by name or by date.
- 🍏 • **Enable iCloud:** Turn iCloud on or off.

Sounds

Turn sounds on or off.

- **Counters:** Turn counter sounds on or off.
- **Mute Auto-Play:** When a row reminder or smart counter shaping step has Auto Play Audio set, this switch overrides the auto play so it will NOT play if it is muted.

- **Voice Control On:** Turn Voice Control on or off.
- **Swap Left/Right Voice Control:** Swap actions for the Left/Right Voice commands.

Markers & Colors

Set your preferred marker and color defaults.

See the Working with Color guide for more information on the Color Picker

Note: These are your default settings that apply to *new projects*. You can adjust these settings for a specific project in Edit.

Warning! Avoid changing these default settings until you understand their impact on your projects.

Row Slider

The Row Slider appears on pieces with no visible rows defined. This marker slides up and down.

- **Color:**
 - Set your preferred color for the Row Slider using the Color Picker.
See the Working with Color guide for more information on the Color Picker.
- **Width:**
 - Use the slider to adjust the width of the Row Slider.
 - This is the default setting, you may adjust these settings for a specific project in Edit. For example, adjust the width so the slider fits perfectly on a chart row.
- **Invert:**
 - Turn Invert on or off.

Stitch Slider

The Stitch Slider slides side to side. Use the Stitch Slider to keep your place anywhere on the page.

- **Color:**
 - Set your preferred color for the Stitch Slider using the Color Picker.
See the Working with Color guide for more information on the Color Picker.
- **Width:**
 - Use the slider to adjust the width of the Stitch Slider.
- **Show:**
 - If you do not wish to see the Stitch Slider, you can turn it off.

One Tap Marker

The One Tap Marker appears on pieces with visible rows defined.

- **Odd and Even Row Colors:**
 - Set your preferred color for the Odd and Even rows using the Color Picker.
See the Working with Color guide for more information on the Color Picker.
- **Invert:**
 - Turn Invert on or off.

You Are Here Marker

Each page of your project has a You Are Here marker that you can place.

- **Color:**
 - Set your preferred color for the You Are Here Marker using the Color Picker.
See the Working with Color guide for more information on the Color Picker.
- **Show:**
 - Turn the You Are Here Marker on or off.

Grid Check

When cropping a chart, a grid overlays the chart to help you determine if it matches the actual chart.

- **Color:**
 - Set your preferred grid color using the Color Picker.
See the Working with Color guide for more information on the Color Picker.

Reset Recent Colors

The Color Picker is preloaded with ten colors, the color circles shown at the top above the Color Picker. As you pick additional colors using the Color Picker, they replace the default palette.

To return to the default palette, tap Reset Recent Colors.

System Colors

Manage system colors, categories, and syncing between devices. See the *Working with Color* guide for more information.

- **Category:** Set your preferred System Color Settings for a specific category.
- **Make New Color:** Make a new System Color.
- **Manage Categories:** Create, edit, and delete categories.
- **Import From Dropbox:** Import System Colors onto your current device.
- **Export To Dropbox:** Export System Colors from your current device.
- **Share:** Share from your current device.

Linked Accounts

Indicates if you have allowed knitCompanion to access your Dropbox, Ravelry Library, or Create2Thrive.
